We ship UPS ground or USPS first class unless otherwise requested. Your shipping cost and delivery time will depend on your shipping zone. Please refer to the Flat Rate Shipping Chart to determine your shipping zone. Orders are normally shipped within 48 hours. As a general rule, the number of shipping days will equal your zone number. For example, An order placed from Chicago (zone 7), will take 8-9 *business* days to be delivered—1-2 days to be processed and leave the warehouse, and 7 days for shipping. Times can vary slightly, but this gives you a general idea for planning.

Flat Rate Shipping

Flat Freight is a system which charts your freight costs by "zone" as a percentage of your order size. To determine your Flat Freight charges:

- Identify the zone you're located in by referring to the zip code chart below and finding the first three numbers of your zip code.
- Select either UPS or DHL and identify your zone on the Flat Freight chart.
- Directly across from your zone number, you'll find your Flat Freight rate.
- Multiply your Flat Rate percentage for your zone by the **RETAIL** dollar amount of your order. That is your shipping cost.

For example: An order valued at \$560 retail, shipped to zone 6 would have a shipping charge of \$39.20.

We're sorry, but at this time we only ship to the continental US and Canada.
